

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Patent Application of :

Xavier ROUAU, *et al.*

Serial No.: 09/462,911

Filed: January 18, 2000

Group: 1651

Examiner: M. Meller

For: A COMPOSITION COMPRISING AN ENZYME HAVING
GALACTOSE OXIDASE ACTIVITY AND USE THEREOF

SUPPLEMENTAL AMENDMENT UNDER 37 C.F.R. § 1.116

Box AF
Commissioner for Patents
Washington, DC 20231

Sir:

Responsive to the Final Office Action of August 9, 2001, and supplemental to the Amendment Under 37 C.F.R. § 116 filed on January 28, 2002 ("January 28th Amendment"), Applicants wish to amend a small portion of the Remarks section of the January 28th Amendment to correct an inadvertent typographical error.

At page 13, second full paragraph, in the third sentence, "di-galactose" should be "D-galactose", as explicitly stated in Clark's table at columns 7-8, cited as support for that sentence. Thus, please strike the aforementioned second full paragraph at page 13 of the Remarks section and insert the following replacement paragraph:

Banks teaches the presence of a large number (at least 16) of sugars, in baked products. Two of such sugars are lactose or galactose. Clark teaches that D-galactose, stachyose or lactose can be used as substrates for galactose oxidase (see table at columns 7-8).

Applicants respectfully request that the January 28th Amendment be considered with the corrected paragraph at page 13.
